### **SMS Expands to Guam and Affiliates with PCR**

Mr. James Dannemiller and Ms. Tara Perez-Steffy are pleased to announce that SMS has opened an office in Guam and affiliated with PCR.

“SMS is pleased to return to Guam where we did business for more than two decades. With the forecasted growth in the market, this is a major opportunity for our companies,” said James Dannemiller, President of SMS. The SMS/PCR team is already working on major projects in Guam. The projects cover both housing needs forecasts and homeless counts. “We foresee major opportunities for SMS in Guam, plus, we see major opportunities for PCR to develop new business opportunities for its services in Hawaii.”

SMS is a premier research and consulting firm in Hawaii. SMS was established in 1960 and has undertaken work through the Pacific Basin, US mainland, Canada and Europe. PCR is a leading environmental consulting firm in Guam, undertaking work throughout the Pacific region. PCR’s expertise includes, but is not limited to planning, impact assessments, permitting, sampling and analysis, remediation, and other related areas. The affiliation serves both companies well due their unique areas of expertise.

“We are most excited to be working with SMS in Guam, and look forward to expanding our business opportunities,” said Tara N. Perez-Steffy, CEO of PCR.
